

# SmartMeter™ Stress Reducing Music

with Subliminal Affirmations and Aural-Sync™  
Brainwave Entrainment to Reduce EMF Stress

STEVEN HALPERN

IPM 2061

STEVEN HALPERN is the internationally acclaimed composer, researcher and recording artist whose innovative, *functional* music supports the body's natural healing energies.

His recordings are used in homes, hospitals, integrative health centers and corporate wellness programs worldwide.

A breakthrough program that combines healing music with subliminal affirmations to support your body's innate ability to maintain balance, health and well-being.

This program uses audible sound frequencies and music to counteract the stressful effects of inaudible EMF and RF transmissions of SmartMeters, cell phone towers, Wi-Fi and other forms of electromagnetic pollution.

The music automatically engages your relaxation response, and can become 'transparent' so that it won't interfere with work or sleep.

To amplify the effects, many tracks add health-affirming affirmations, which are mixed softly (*subliminally*) into the music. Although you don't hear them, your *subconscious mind does, and responds accordingly*.

Affirmations include: *Listening to the music and affirmations support the innate healing energies of my body, mind and spirit. Perfect health is my natural state.*

Some tracks also add 8 cycles per second alpha brainwave entrainment tones to deepen relaxation. (read more at [www.innerpeacemusic.com/EMF](http://www.innerpeacemusic.com/EMF))
